\$1,000,000 FIRE

Entire Okhotsk District Destroyed.

Fate of Many Unknown

Tokio, July 7.—Fire has swept the entire fishing district on the western shore of the Sea of Okhotsk, which was leased to Japan under the Treaty of Portsmouth. The area burned over includes the city of Okhotsk, according to a wireless report received by the Hokkaido Fisheries Company from the steamer Kamehata. The financial loss is estimated at \$1,000,000 and so far the fate of the fishermen along the coast is unknown.

The company has asked the government to dispatch warships to the scene to investigate the origin of the fire, which is believed to have been set by Bolsheviks.

MECKLENBURG VOTES FOR COUNTY HEALTH UNIT

Boydton, Va., June 30.—Following a year's successful work of the United States Public Health Service in co-operation with the State

Board of Health, the board of supervisors of Mecklenburg, with the financial co-operation of the Red Cross chapter of the county, has guaranteed a fund of five thousand dollars to match a similar sum from the State Board of Health and the International Health Board for the establishment of a county health organization for a year's intensive campaign. Under the co-operative plan such as Mecklenburg has voted to adopt a medical health officer, who is a field director of the State Board of Health staff, takes charge and organizes a county health department, a sanitary demonstration and a public health nurse are installed. School inspection work is done. Sanitation is stressed. Water supplies are improved, and intensive health work generally is done under the personal direction of experts. This unit will begin operation about October 1.

The immediate result of such work has been marked reduction in the incidence of and deaths from filth-borne diseases, and the larger number of counties, after a year's experience with such an organization, take steps to make permanent the county health department.
